# SmartStart HUB

## CONNECTING FAMILIES WITH CHILD & YOUTH DEVELOPMENTAL SERVICES

Concerned about  
your child/youth's  
development?

*Not sure where to go? Let us help you!*

The SmartStart Hub will be a clear entry point to service, to make sure you get connected to the help you need.

Developmental Services are for families and caregivers who may be concerned about one or more of your child/youth's ability:

to move around

to perform daily activities such as feeding/eating

to understand other people or tell people what they want

to get along with others, or the way their development impacts their ability to participate in activities

\*Children are eligible from birth to age 19, or 21 if they are in school. You do not need a diagnosis or physician referral to access the SmartStart Hub.

(519) 252-7281
