If you prefer to keep an electronic record of your child's health information, this can be done using either of these websites: www.ensembleunderstands.com or www.sickkids.ca/myhealthpassport.

If you disagree with what has been written in a JMCC report, please first discuss your concern with the person who wrote the report. If you still have concerns contact that person's supervisor. How We Deliver Services

We partner with you to develop and work towards goals that are important to you.

We inform you of the services we offer and decide together which services can best meet your goals. Our services can be delivered individually, in combination with other therapies, or in a group.

- When services start, how often and how long you are seen depends on the reason for referral, your needs and goals, as well as available resources.
- Services may pause and start again as goals and needs change.

Services are most often provided in the Centre. Some may be provided in your home, school, child care centre. If you have a need for services to be delivered in your home or in the community, please talk to your therapist.

Services are only one part of what makes a difference in skill development.

- New skills require practice. Therapists will make suggestions that you can work on at home.

We will provide and help you understand information about:

- your abilities, potential challenges and our recommendations
- other community services, resources and general information
- what we need from you
- the roles and responsibilities of everyone working with you

Consent for Service

Before starting services, therapists must have your consent. Consent is required for each assessment and service and when treatment plans change. Under Ontario law (called the Health Care Consent Act) a person is capable to decide about his/her own treatment if he/she is:

- able to understand the information needed to make the decision, and
- able to understand the harms, benefits and outcomes of having or not having services

Discharge

Service includes developing a plan for discharge or transfer. It is time for discharge or transfer when:

- therapy goals are met
- services are better met by another program, provider or agency
- you no longer qualify for services (i.e. you move out of the area, turn 21 years old)
- you request discharge
- we are unable to contact you or you miss 3 scheduled appointments in a row and do not call to reschedule

Re-referrals can be made to the Centre if a new issue arises or if you experience a change in your condition.
